FEEDBACK FROM OUR GUESTS

Corporate Sailing Day onboard Halo with accompanying powerboat and branded kit

"The expertise of Skipper Tim and shipmate Josh, along with our splendid rep Susie, was truly outstanding. I can't praise the hospitality and service from Salty South Coast Events enough. Every detail of the experience at sea was meticulously attended to by the crew, ensuring we had the best time and all our needs were met.

The challenges throughout the day kept our time at sea both exciting and engaging, really helping our team connect and work together to overcome each obstacle. The team was also very accommodating, allowing us to anchor up and enjoy the local amenities at Cowes, even though we hadn't planned this into our day.

Highly recommended; excellent service. We would definitely come back again and recommend it to others."

Corporate Race Day in Cowes Week

"Hugo Mills & the Salty team provided a first class experience for our corporate sailing day during Cowes Week.

Our team set out to bond colleagues from different business departments and office locations - Hugo's professional but relaxed approach to coaching our team to Cowes Week racing readiness in a short time was highly impressive, resulting in an exceptional sailing experience for our team, some of whom were novice, others experienced, which added to the highly successful result - a happy team ! We will be booking for 2024 for two of our business units."
